

# Grading & Expectations

*Math*

"The only way to LEARN math is to DO math." - Paul Halmos

## 1. Grading

I do **NOT** do a ton of worksheets, so don't expect work to come home with your child.

Your child has 15 minutes daily in homeroom to complete homework, so they may not have work to do often. Please do not stay on IXL for longer than 30 minutes on a skill.

### Daily In Class work

- Materials ready
- Positive attitude
- Tries all assigned problems
- Collaborates
- Appropriate Behavior

**5 pts/day**

### IXL Homework

- Graded out of 10 (90% = 9/10)
- OR 30 min practice = 100%
- Always due following MONDAY @ 8am
  - Late IXL is NOT accepted
  - Usually 2 per skills week

**20 pts/wk**

### Tests

- Calculation Based w/ some multiple choice
- I am open to making up points if the student fails
- Study: Practice assigned skills on IXL

**~50 pts**

## 2. What does math look like in Mrs. Schneider's room?

Your child will be engaged in a variety of skill building lessons. Below are a few of these lessons.

- Teacher-Led Mini Lesson (No more than 15 min)
  - Introduction of concepts
- Game-based learning
  - Full group practice w/ immediate teacher feedback
  - Extremely engaging amongst students
- Small Group Practice
  - Includes IXL practice time
  - Individualized skill practice at your child's level

### Stay updated!

Visit Mrs. Schneider's page on the Hettinger Public School website to stay updated with IXL assignments and standards your child will be learning.
